

The Courier-Gazette TWICE-A-WEEK.

Congressman Littlefield was one of a number of distinguished speakers, among them President Elliot of Harvard, at the annual dinner of the Holland Society in New York last week. Mr. Littlefield's address dealt with the questions of civil and religious liberty as made prominent in the extraordinary career of William of Orange, who he pointed out was the first to stand for the same sort of popular liberty that the people of this country today contend for. The second part of the address was a strong plea for the recognition of the constitution in the government of the United States and the necessity of the Supreme Court always standing as a bulwark and final tribunal of appeal; nor should there be any attempt made to usurp the functions of that body by increasing the powers of the executive or legislative branches of the government. The dangers of such encroachment Mr. Littlefield illustrated by reference to instances of hasty and ill-digested legislation, and attempts at such, recorded throughout the country in recent times. In the course of these illustrations the Congressman brought about a great demonstration, so the press despatches state, when alluding to the essential features of the fundamental law he referred to the veto of the two-cent measure by Governor Hughes and said the Governor had shown by his official acts that he is "safe, sane, sound, sensible and sincere," which was the reason why the "greatest elective office known to our civilization is now seeking the man—Charles T. Hughes." We really see no reason why, if Mr. Littlefield held this opinion of the Governor, he should not say something pretty of this sort—indeed, at a time when Hughes is so highly spoken of, and is so prominently in the public eye, a speaker in political life, addressing a New York audience, would have been reckoned particularly stupid had he failed to do precisely what Mr. Littlefield did so gracefully. Now comes the Lewiston Fishwife, and with the hysteria and blind stagers common to it whenever our Congressman's name appears in public print, casts above a column of venomous bile from its journalistic stomach, and fairly foams at the mouth because Mr. Littlefield should say a kind word about any possible Presidential candidate that the editor of the Fishwife hadn't endorsed, or should presume to have views regarding public measures differing from the views entertained by the puerile self-worshiper of the Androscoggin.

Not so many papers are at it as formerly, but now and then one of them breaks out with an attempt to get up a scare war between this country and Japan, and occasionally some good people get nervous over it. They oughtn't to be frightened. It is not likely that this country will kick up any fuss and Japan isn't likely to under her present condition of staggering debt. To go to war with so huge and rich a country as the United States will require an enormous war chest, and Japan is not probably to be thought of as a borrower of money in the markets of the world for many years to come. She's yet a long way from being out of the woods with her Russian war expenditures.

That latest theatre horror in Pennsylvania thrills the whole country and again emphasizes the fact that many places of amusement are not properly safeguarded against fire, or worse, panic. The amusement place of the future will be so constructed that the whole interior will open instantly to the outside, so that it will be scarcely possible for a crowd to stampede and block a narrow exit.

The man who doesn't like to shovel off his sidewalk hasn't been much annoyed by snow this winter. The local coal dealer has also had more than his usual rest from filling orders, a condition, singularly enough, that has exactly suited him, when coal in Rockland is retailed at a less price than Boston consumers pay.

Rio was very happy to entertain Uncle Sam's war fleet and rejoiced in the fact that the visitors left there a quarter of a million dollars in the way of business. Rockland recalls a similar experience, on a smaller scale, that it would be glad to have repeated.

The probability is that uninstructed delegations will go from New England to the Republican national convention. Perhaps at this time there is a majority of Taft sentiment here, but Hughes is a man that strongly appeals to the New England imagination.

With the panic excitement vanished away and prices getting back to normal, investors are now reproaching themselves that they didn't buy more stocks and bonds when the best of them were on the bargain counters. Which is apt to be the way.

The open winter makes a fertile field for the skating accident. Seems as though the column of drowning accidents never was a longer one than this season's.

Sometimes we almost get to thinking that the editor of the Lewiston Fishwife actually takes himself seriously.

RECEIPTS EXCEED EXPENSES.

Annual Report of Knox Hospital Shows Some Gratifying Figures—Many Patients Treated Last Year.

A gratifying feature of the annual reports concerning the Knox County General Hospital is the item showing that the receipts of the past year exceeded the expenditures by \$34. The receipts from patients amounted to \$2589 and the receipts from donations were \$420. The total expenditures were \$2555.

The annual meeting was held Friday afternoon when the following officers were elected:

President, A. W. Butler; secretary and treasurer, H. O. Gurdy; directors for three years, A. W. Butler, E. W. White, W. T. White, George Walker of Warren and E. J. Wardwell of Camden. M. S. Bird was elected to fill the unexpired term of his father, the late Hon. S. M. Bird.

Donations to the hospital, other than cash, comprise the following list of contributors: Dorcas Club, Junior Union, Mrs. Maynard Bird, Stanley Whittier, Margaret Brewster, Helen Perry, Congregational and Universalist churches, Mrs. C. H. Berry, Mrs. W. S. White, Mrs. C. M. Keyes, Mrs. L. G. Clarke, Miss Myra Maxwell, Capt. Kent, Philip Thomas, Mr. and Mrs. W. L. Blackington, Mrs. Laura Bird, Mrs. Olive Moore, Dr. C. G. Weld, Governor Cobb, W. O. Fuller, Jr., Fred Robbins, Opinion and Courier-Gazette, Mrs. T. F. McCormick, Mr. and Mrs. E. A. Knowlton, Lewis Herzog and family and Woman's Auxiliary.

From the annual report of Jennie M. Draper, superintendent, it is learned that 235 patients have been admitted to the hospital during the year, and that the whole number of patients treated, inclusive of the out patients, was 242. Two hundred and twenty patients were discharged, 12 died and there were 10 in the hospital when the report closed. Of those who died five were moribund when they were admitted. The number of accident cases treated was 28.

From the superintendent's report the following is quoted: "The past year has been a trying one in many respects. The help and support that the surgical and medical staff of the hospital give is of untold value. The Woman's Auxiliary have furnished a large amount of bedding, table linen, preserves, etc., and accomplished much good work for the benefit of the hospital. Their efforts, so often made, are fully appreciated, not only by the officials, but by the citizens in general. It would be almost an impossibility to maintain the work without their sympathy and help."

"I think there has been a marked increase of interest in the people of Rockland toward the hospital this year. The different churches, clubs and individuals have remembered us in ways that have been helpful and pleasing. The hospital has met with a great loss in the death of four of its most valued friends, Col. E. R. Spear and Hon. S. M. Bird, and Dr. George and Peletiah M. Studley of Thomaston. For years Dr. George supported the James A. Creighton memorial bed here, and the news of his death came to us as a sad shock."

The 6th annual report of the training school is also interesting. The year began with one 3d year nurse and four probationers. During the year four were admitted and two were discharged. The hospital begins the present year with three 3d year nurses, three 1st year nurses and one probationer. There have been no graduations this year. The general health of the nurses has been good, the total number of days' illness being 19 for the year. A graduate nurse was employed, Miss Lena F. French, who has filled this position very acceptably from May 3 to Dec. 21. The nurses are now better able to meet the emergencies and Miss French's services have been discontinued. Hope is expressed in the report that some method will be devised to provide a course of training in obstetrical work. The need of a nurses' home, or suitable quarters for nurses when on duty, is considered urgent. At present the third floor of the hospital building is being used for that purpose. The demand for nurses is very great and it would aid the hospital's finances if there could always be kept five or six doing outside work. Before this will be possible larger quarters must be provided for nurses.

The superintendent hopes later to form a District Nurses' Association, where the sick calls for the poor may be answered. In this way the hospital will be able to prove to the citizens of Rockland it is not an "experiment" but a "necessity."

The report of the directors will be presented later.

The directors voted to increase the rate in the wards from \$1.25 per day to \$1.50 per day on or after Feb. 1st.

Murdered In a Prison.

Insane Convict Killed at Thomaston By Convict Supposed to Be Insane—Victim Was Serving Life Sentence For Triple Murder.

A murderous assault, resulting fatally four hours later, was committed in the insane department of the Thomaston state prison Sunday morning between 7:30 and 7:45. The victim was an insane convict named Edward M. Smith who was serving a life sentence for triple murder. His assailant was Neal Dow Brooks, who was sentenced four years ago for rape and who was under observation in the insane department. An inquiry was held in the wardens' office yesterday morning and as the result of it Brooks will be indicted for murder at the next session of the grand jury.

The story of the Sunday morning tragedy is one that may be told very briefly. It was the time for cleaning the cells and the prisoners were returning to them from the bathroom. When Smith had nearly reached the top of the flight of stairs near the third corridor Brooks crept up behind him and with all the strength of a crazed man dealt him four blows over the head with an iron bar. This implement he had twisted from the iron frame of the bedstead in his cell.

Overseer Levi W. Jones was in charge of the insane convicts, and although the crime was not committed within his range of vision he was speedily made aware that something out of the ordinary happened. Hurrying up the stairs he found "Bucksport" Smith, as he was known, lying in a pool of his own blood, with a broken skull. The prison physician, Dr. J. E. Walker, was immediately summoned together with Warden Norton. The victim of the assault was given every possible attention, but died at 12:30 p. m.

Brooks had meantime gone to his own cell, where he made no attempt to deny that he had done the deed. It had been his intention, he said, to kill some five or six of the officials. He labored under the impression that he was the victim of a conspiracy and that an attempt was being made to poison him.

The inquest yesterday was conducted by Coroner Jenkins, the autopsy being performed by Drs. J. E. Walker of Rockland and W. M. Spear of Rockland. The following representative

Arthur S. Littlefield is a member of the committee of arrangements for the Mystic Shrine ladies' night which is to be observed in Lewiston city hall, Friday evening, Feb. 21.

At the annual session of the Maine Opticians' Association in Waterville last week Orel E. Davies of this city was elected a member of the executive committee.

The U. S. tug Sioux, which is a frequent visitor to these waters in connection with the warship trials, struck on the ledge off Gill Rocks Lighthouse, Newport, R. I., last Thursday. She was still there and quite badly damaged at last accounts.

Charles Robinson, a debonair tooter in Farnham's orchestra, lost his hat at one of the recent masquerades in Penobscot View Grange hall. The missing headgear caused him many anxious moments, for it could not be duplicated in this country. But the hat—like the cat—came back. And what matters if Charlie did have to pay express?

While Herbert Prescott was pumping up the gasoline stove in Thorndike & Hix's factory yesterday, it is presumed that the heater became overcharged. In the flap, which ensued, the young man's face was quite badly burned and his hair was singed. He was taken to his home and given prompt medical attention. He will be able to work again in a few days.

Governor Cobb was in New York again last of the week, attending a meeting of the protective committee of the bondholders of the Consolidated Steamship Co. Plans are being made in the interests of the bondholders, but have not been formulated so that any definite announcement can be made at this time. Governor Cobb expressed the opinion that the local service of the Eastern Steamship Co. would be in no wise affected by whatever was done by the committee.

The 75th anniversary celebration of the First Baptist church begins next Sunday, lasting five days. Sunday morning the pastor will deliver an historical sermon, and in the evening there will be an unveiling of the portraits of six deceased pastors, with a sermon in memorial by former pastor, Rev. W. O. Holman. Monday night will be a denominational night, when there will be addresses by Governor Cobb, Mayor Jones and several well known pastors. The topics for the remainder of the anniversary exercises will be as follows: Tuesday afternoon, "Our Church Fellowship" (with roll-call); Wednesday evening, "Our Young People"; Thursday afternoon, "Our Women"; Thursday evening, "Our Men." One of the distinguished speakers on Woman's night will be Mrs. L. M. Stevens, national state president of the W. C. T. U. The souvenir programs, which will be a source of delight to every member and friend of the First Baptist church, will be ready sometime this week and orders may be given any time to Misses Jeannette Simmons and Eda Knowlton.

The lecture to be given in our city next month by Rev. Robert Stuart MacArthur is certain to attract public attention. Dr. MacArthur is a great favorite with a Rockland audience. It is some ten years since he was last here.

At the last meeting of the Men's League of the Baptist society an unexpected joy was in the signing of a male quartet, made up of Osmond Palmer 1st tenor, A. W. Bonner 2d tenor, Ray Greene 1st bass, Fred Sherman 2d bass.

The W. H. McLoon Co. has been organized at Houlton for the purpose of carrying on a general cigar and tobacco business, with \$10,000 capital stock, of which \$4000 is paid in. Officers: President and treasurer, W. H. McLoon of Houlton. Mr. McLoon is a former Rockland boy, a brother of alderman A. C. McLoon.

Mrs. Robert Sutcliffe who has recently retired from the head of the social department of the Epworth League can well afford to rest on her laurels. During her term of office the Epworth League have turned into the treasury more money than for many years past. Her crowning achievement was the launching and carrying to a most successful issue of the great Mill of Pennes contest recently closed. When all the returns are in over \$270 will have been placed to the credit of this hustling young people's society. All the entertainments given and refreshments served during this campaign were in charge of the fourth vice president of the league and her workers. Mrs. Sutcliffe's other duties in the parish, church, organist and Sunday school teacher, rendered necessary her relinquishment of all league work.

A PASTOR'S REQUEST.

All members of the First Baptist church, Rockland, who, by reason of advanced years, physical infirmities, or ill-health, will be unable to be present in person at the Church Rally, are requested to send a letter to the pastor, so that they will reach him not later than Tuesday, Jan. 28.

The new moving picture show—Wonderland at Fairwell Opera House—last night to the largest audience seen at this popular play house for a long time, and the high character of entertainment as presented will be sustained every afternoon and evening from 2 to 5 p. m. and 7 to 10:30 p. m. It will be the policy of the management that whatever is offered at the Fairwell will be of the best in its line. Miss Nella Daggett made first appearance before the footlights last night and her singing of "Just a Twilght Picture" and "My Toy Soldier" proved to be the hit of the season, and goes to show that this popular little lady has more than made good with local play-goers. Every one should be sure and see the pictures which are offered at the Fairwell for the first half of the week, as a complete change of program will be offered for Thursday, Friday and Saturday. If you are looking for your friends you will be sure to find them at Wonderland.

The Portland papers are having long writeups concerning the Sawyer Connolly bout which takes place in that city tonight. From yesterday's Press we quote the following: "Perhaps the most reasonable sum I have heard of is \$10,000," said Tom Sawyer in a letter received here Sunday, "but I'll make him go so fast, now that I am feeling myself again, that our last bout will seem slow in comparison." "That may be a man of my weight in the State of Maine who can put me away in six," says Connolly, "but it isn't Sawyer and I am willing to back myself for any reasonable sum I want anybody to back either." So there you are, Sawyer, they do say, shaded Bartley once in a 10-round bout at Rockland and he bases his claim to fame on that. Bartley was strong at first, but he did not last. Bartley was outpointed some. He says he was not in good condition then nor had he had the experience that is now him. Bartley did not extend himself to the limit at the last bout; that is he did not try hard for a knockout, because he was satisfied that he was shading Sawyer right along. Now that Sawyer has made the task about winner taking all, Connolly has decided to take the aggressive from the start and make the Rockland boy show what is in him. Under these conditions the bout ought to be a slaughter from beginning to end, and many think the end will come before the sixth round is over."

The Portland papers are having long writeups concerning the Sawyer Connolly bout which takes place in that city tonight. From yesterday's Press we quote the following: "Perhaps the most reasonable sum I have heard of is \$10,000," said Tom Sawyer in a letter received here Sunday, "but I'll make him go so fast, now that I am feeling myself again, that our last bout will seem slow in comparison." "That may be a man of my weight in the State of Maine who can put me away in six," says Connolly, "but it isn't Sawyer and I am willing to back myself for any reasonable sum I want anybody to back either." So there you are, Sawyer, they do say, shaded Bartley once in a 10-round bout at Rockland and he bases his claim to fame on that. Bartley was strong at first, but he did not last. Bartley was outpointed some. He says he was not in good condition then nor had he had the experience that is now him. Bartley did not extend himself to the limit at the last bout; that is he did not try hard for a knockout, because he was satisfied that he was shading Sawyer right along. Now that Sawyer has made the task about winner taking all, Connolly has decided to take the aggressive from the start and make the Rockland boy show what is in him. Under these conditions the bout ought to be a slaughter from beginning to end, and many think the end will come before the sixth round is over."

Girlhood and Scott's Emulsion are linked together.

The girl who takes *Scott's Emulsion* has plenty of rich, red blood; she is plump, active and energetic.

The reason is that at a period when a girl's digestion is weak, *Scott's Emulsion* provides her with powerful nourishment in easily digested form.

It is a food that builds and keeps up a girl's strength.

EAST UNION

Mrs. Izzie Eitter of Natick, Mass., has returned home after a few weeks' visit with her parents, Mr. and Mrs. Lewis Young.

Arthur Wineapaw and wife of Augusta are the guests of Mr. and Mrs. U. S. Wineapaw.

The officers of Pioneer Grange were installed last Thursday evening by Mrs. Warren Gardner of Rockland, assisted by Mr. and Mrs. James Morse and Miss Cora Morse of Camden. The work was performed in a very satisfactory and pleasing manner and is worthy of much praise. The officers were duly installed as follows: Master, W. J. Taylor; Overseer, Burleigh Eganey; Lecturer, Mrs. May Robbins; Steward, J. M. Davis; Asst. Steward, James Dorman; Chaplain, Mrs. Jennie Rayson; Secretary, Randall Robbins; Treasurer, S. E. Wentworth; G. K. W. E. Dorman; Ceres, Mrs. W. J. Taylor; Pomona, Mrs. Ida Wentworth; Flora, Mrs. Ethel Dorman; L. A. S. Margaret Dorman. After the installation ceremony a good program was presented by the lecturer, followed by interesting remarks by visiting members and others. At the close of the exercises a bountiful collation was served.

HER GOLDEN BALL.

An Incident of Revolutionary Times on Long Island.

Probably no game of ball by professional or college team was ever watched with such inner interest, but with such outward indifference, as one described in Gertrude Vanderbilt's "Social History of Flatbush." It happened in Revolutionary times, when the British soldiers were stationed on Long Island. The inhabitants had hidden their valuables in all possible places. One lady concealed some gold coins in a tall shaped phibson of the kind worn by the Dutch housewife, suspended at her side.

She was sitting sewing one day when a party of British soldiers entered the room. A young officer, spying what to him was a novelty, cut with his sword the ribbon by which the cushion was hung and began a game of ball.

Soon the rest of the company joined the sport. Boisterously from hand to hand the ball was batted to and fro. It was roughly snatched and tossed, and sometimes it fell into the ashes of the fireplace and barely escaped capture. One lady, apparently intent on her work, and to see her fortune flying through the air at the mercy of the enemy. At last the cushion, torn and battered, and still guarding its treasure, was returned to its mistress, and the intruders, tired of their play, left the house.

Every moment threatened to reveal the precious contents. To show the least anxiety was to betray the secret, and the owner was forced to sit unmoved, apparently intent on her work, and to see her fortune flying through the air at the mercy of the enemy. At last the cushion, torn and battered, and still guarding its treasure, was returned to its mistress, and the intruders, tired of their play, left the house.

CONFUSED IDENTITY.

Odd Things Said by Folks When Taken by Surprise.

People taken by surprise sometimes say what they do not mean. A car full of people were entertained recently by a conversation which neither of the participants found comic. Young People told the story:

A train was waiting in a dim station at the end of a dull afternoon. Lights were not yet lighted, and it was decidedly dark within the car.

An excited and nervous woman hurried in, hurried down the aisle, peering at the passengers as she went, and at last she dropped into a seat beside another woman exclaiming, with a sigh of relief:

"Oh, it's you!"

"Certainly not," snapped the startled stranger, turning, whereupon the mistaken traveler hastily apologized:

"I beg your pardon, sir, it's so dark in here I was quite sure you were."

Another woman in similar circumstances became even more confused. She was waiting for her sister in a railway station when a gentleman, looking for his wife and misled by a general resemblance in figure and clothing, stepped up behind her and, laying his hand on her shoulder, exclaimed:

"Thank goodness, Emma, it's you!"

The name he used happened to be really hers, which made the sudden familiarity even more startling. She jumped nervously.

"You're mistaken, sir," she gasped. "I'm Emma, but she isn't me!"

Censorious Sisters.

"I didn't think you'd get so angry because I said I thought you ought to wear gray suede shoes with your gray dress instead of white ones. I didn't mean to offend you," her friend very sweetly apologized.

"Never mind," she returned softly. "It was all right, but it made me angry for two reasons—first, because I had to wear the white shoes because I didn't have any others that were presentable, and second, because when I left my family of sisters, who made every possible sort of comment on my clothes, I declared I would never stand by for anybody else. I said to myself that whenever a friend got so friendly that she thought she could treat me like a sister I'd shake her."—New York Press.

A Cause For Thanks.

In the audience at a lecture on China there was a very pious old lady who was slightly deaf. She thought the lecturer was preaching, and every time he came to a period she would say "Amen" or some other pious exclamation. The people in the audience, which was composed mostly of the village church members, knew she was being reverent and did not even smile when she exclaimed until finally the lecturer mentioned some far-off city in China, saying "I live there." At this point clearly and distinctly could be heard the old lady saying "Thank God for that!"

An Unusual Task.

"Hello, Jack, old boy, writing home for money?"

"No."

"What are you taking so much trouble over, then? You've been fussing and fussing over it for the last two hours."

"I'm trying to write home without asking for money."

WHITE AND RED.

New Light Near Isle au Haut Shows Two Colors—Description of the Station.

The current number of the weekly notice to mariners has to do with the newly-established light station at Isle au Haut, located on Robinson Point, northwesterly side of Isle au Large, southwesterly side of the westerly end of Isle au Haut Thorofare, easterly side of Isle au Haut Bay.

Dec. 20 a light of the fourth order was established in the tower recently constructed at this station. The light shows fixed white between NE 1-2 E and ESE, and fixed red over the remainder of the arc. The light is 48 feet above the water and 45 feet above the base of the tower, and is visible 12 1-2 miles in clear weather, the observer's eye 15 feet above the water.

The approximate geographic position of the light, as taken from Chart No. 389 of the United States Coast and Geodetic Survey, is, latitude, north, 41 degrees, 03 minutes, (53 seconds); longitude, west, 63 degrees, 39 minutes, (06 seconds). Inner ledge Spindle, NE 3-4 E, 5-16 mile; Kimball's Head, 10 tangent, NW 1-2 E, 3-12 mile; saddleback, LE 1-2 E, 1-16 mile; SW by W 5-5 W, 4 1-12 mile.

The tower is conical and of dark gray granite to the height of 24 feet, the upper 16 feet being cylindrical and of red brick, the whole surmounted by an octagonal, black parapet and lantern. A white wooden bridge, 19 feet long, is located on the northerly side of the tower; a grayish-white dwelling 60 feet and a grayish-white dwelling 20 feet, a white house 400 feet E 1-2 E, and a white house 470 feet ESE 1-2 E, all from the light-tower.

On the same date there was also established a bell of the second order, chiming, during thick or foggy weather, a single and a double blow alternately every minute; the interval between blows will be about 2 seconds.

The newspapers speak of Peter A. Foley, of Portland, as "the most wonderful telegraph operator in the world." Foley is totally deaf, an affliction which ordinarily would be supposed to make telegraphy an utter impossibility to him, but since he became deaf, eight years ago, he has developed what may be called a sixth sense, and by touch and sight he can detect the finest movements of the instrument and correctly interpret them. By means of the sense of touch in his finger tips he takes messages transmitted from the ends of the continent and can also read a message by watching the sounder. With his left forefinger placed lightly on the sounder he can take a message as accurately as the average operator.

THE LAST WITNESS.

He Caused a Commotion in a Suit in Chancery.

It was a suit in chancery, and there was a great gathering of deceased's family, quarrelling, as relatives will, over the division of the spoils. The lawyers engaged chuckled, for the suit seemed likely to be prolonged and complicated.

There were many lawyers, too, and the judge marvelled at the immensity of the deceased man's family as lawyer after lawyer rose in rapid succession, introducing themselves with the usual formula, "And I, my lord, am for the nephews [or nieces or first-cousins removed, as the case may be] of the deceased." The procession seemed interminable, but at last it came to an end. Then a small voice was heard timidly saying from the back of the court, "May I be allowed to speak, my lord?" There was dead silence as his lordship adjusted his spectacles and asked rather dejectedly, "Who are you?"

The answer was, to say the least, unexpected. "I am the deceased, my lord," said the modest voice from the back of the court. That ended the action.

Quite unknown to his relatives the deceased had turned up from the wilds of Rhodesia. Obviously a man of humor, he must have taken a delight in watching how "the best laid schemes of mice and men gang aft a-gley."—English Paper.

TWO REMARKABLE CURES OF ECZEMA

Over Twenty-three Years Ago Baby had Severe Attack—Years Later Grandfather Suffered Torments with the Disease—Virulent Sores Developed from Knees to Toes.

BOTH OWE COMPLETE RECOVERY TO CUTICURA

"In 1884 my grandson, a babe, had an attack of eczema, and after trying the doctors to the extent of heavy bills and an increase of the disease and suffering, I recommended Cuticura and in a few weeks the child was well. He is today a strong man and a soldierly free from the disease. A few years ago I contracted eczema, and became an intense sufferer. A whole winter passed without once having on shoes, my ankles and nearly from the knees to the feet being covered with virulent sores. I tried practitioners, specialists, dermatologists, etc., to no purpose. My daughter-in-law reminded me of having prescribed Cuticura for my grandson more than twenty years ago. I at once procured the Cuticura Remedies and found immediate improvement and final cure, till today, though well along in years, I am as though I had never had that disease. I am well known in the vicinity of Louisville and Cincinnati, and all this could be verified by Mr. W. W. Laflue, 845 Seventh St., Louisville, Ky., April 23 and May 14, 1907."

The agonizing itching and burning of the skin, as in eczema, the dreadful scaling, as in psoriasis; the loss of hair and crusting of scalp, as in scalded head; the facial disfigurement, as in acne—all demand remedies of extraordinary virtues to successfully cope with them. Cuticura Soap, Ointment and Pills are such remedies proven by testimonials of remarkable cures when many failures have occurred by the use of other remedies. One set is often sufficient to cure.

Cuticura Soap (25c) to Cleanse the Skin, Cuticura Ointment (50c) to Soothe the Itch, and Cuticura Pills (50c) to Purify the Blood. Get the full story of the cure of eczema in the book "Eczema and its Cures" sent free on request. Write to J. C. Allen & Co., 22 Maiden Lane, New York City.

FROM WASHINGTON

(From Our Regular Correspondent.)

Washington, Jan. 15.—Through the Postoffice Department, Uncle Sam this week made a job at the Demon Rum, undertaking to help in the enforcement of the prohibition laws in certain southern states. Since the advent of the glad New Year, when certain sections of Dixie land became officially "dry," the department has received by mail and telegraph hundreds of complaints against the carrying of liquor from one point to another by carriers on rural mail routes. So numerous were the complaints and so urgent the demand that this practice be stopped, that the Postmaster General looked into the matter and decided to stop the traffic. Therefore his mails on all rural routes shall contain a stipulation against the transportation of intoxicating liquor by the contractor or carrier upon such routes. The performance of the mail service. This inhibition is to apply at once to contracts made for star route service in the Carolinas, Georgia, Florida, Alabama, Mississippi, Kentucky and Tennessee, and will later be extended throughout the country.

Hail to the "Champion of the Childless" (Threefold)! May his memory never grow cold in the minds of the pretty typewriter girls whose hearts he will have made happy, if his efforts in their behalf prove successful. He is Congressman Gustavus Kusterman, who for the first time, represents the 9th district of Wisconsin in Congress, and the title he has earned has come to him through his contemplated and announced efforts to undermine the childless trust and remove the tariff on that most indispensable of course, all the girls who finger the typewriter keys for a living know that "childless" is just the dictionary name for "chevins" gum," and when Mr. Kusterman announced that he would use his best efforts to bring about the free entry of the raw product from Central America and other points, there was a prolonged and anticipatory snacking of girlish lips in and about the offices of the capital. The Wisconsin Congressman is a member of the Committee on Alcoholic Liquor Traffic, and the girls can't exactly figure out what effect the reduction of the price of chewing gum will have on the liquor traffic, but they're grateful for the same.

President Roosevelt has assailed one bulwark of that institution dear to the heart of every Congressman—Congressional patronage. The Chief Executive has recommended to the members of the four thousand additional employees needed to carry on the work of tabulating the figures of the next census recourse be had to the Civil Service Commission. Hereafter, the extra force needed to expedite the taking of the census has been assembled through appointments by the various members of Congress, and although these clerks have been compelled to take examinations to demonstrate their fitness, such tests have not been competitive. As Mr. Roosevelt pointed out in his message to Congress on the subject, the non-competitive examinations used in selecting the force at Washington for the last two censuses served only "as a cloak to hide the nakedness of the spoils system." Furthermore, he declared, "the taint of the spoils system will not merely hamper and delay the economical and efficient taking of the census, but will impair the belief of the public in its honesty," for he asserts that the great majority of the clerical employees of the last two censuses were far below the average ability. Whether Congress will take the view of the matter and follow out his recommendations, remains to be seen, but it is likely that the matter will evoke some lively discussion ere it is settled.

With true Southern chivalry, Congressman T. W. Sims, of Tennessee, is drafting a bill requiring an eight-cent fare from all Washington men who, when a street car on which they may be riding is crowded, will not surrender their seats to women passengers. Mr. Sims thinks the present state of Washington's traction affairs a disgrace, declaring that the cars on certain important lines invariably are crowded. He believes the bill he is contemplating introducing will arouse the people to some action looking to the adoption of remedial measures. Under its terms women who have to stand will only have to pay a two-cent fare, while even this small sum may not be collected if they carry babies. Mr. Sims does not say whether he intends that each man in a crowded car shall be compelled to pay an additional three cents when one woman enters and is compelled to stand, and he hasn't indicated clearly how he will round this phase of the matter. Instead of resulting in the better equipment of the car lines, however, it would seem that such a law would be welcomed by the companies, who would run fewer cars and thus collect a good many excess fares each trip.

Representative Clark of Florida on Monday introduced a bill calculated to establish a national trial in the press as regards the publication of reports of sensational murder or divorce trials. His bill, prompted perhaps by the resumption of a world famous murder

case, prohibits the transportation in the mails, or the depositing in any mail receptacle, of any newspaper, magazine, or other publication containing the alleged facts of any divorce suit, murder case, or other proceeding "of an indecent or immoral character, or which would tend to excite the passions of youth." It is undoubted that Mr. Clark's bill will find sympathy and even support in many quarters. It is generally believed that he hardly will be able to get action on it. It probably will be referred to committee, when it will be pigeonholed and left to die, quietly but scarcely alone.

An important change in the administration of the Panama Canal building is effected in a bill introduced this week by Congressman Mann of Illinois, a member of the Committee on Appropriations. With his fellow committee members, Mr. Mann made a trip of inspection to the isthmus last November, and is firm in his conviction that the legislation he advocates will aid very materially in the earlier completion and more satisfactory construction of the canal. The bill provides for the appointment of a chief engineer in chief, a member of the committee on Appropriations, and a member of the committee on Commerce. The bill also provides for the appointment of a chief engineer in chief, a member of the committee on Appropriations, and a member of the committee on Commerce. The bill also provides for the appointment of a chief engineer in chief, a member of the committee on Appropriations, and a member of the committee on Commerce.

ROCKLAND PEOPLE WITH WEAK LUNGS NEED VINOL.

Many people inherit weak lungs which are likely to be attacked by consumption, so also are lungs weakened by disease or by a stubborn hacking cough.

No matter what the cause, Vinol strengthens weak lungs and gives one the power to throw off wasting diseases. The reason that Vinol has such power to heal and strengthen is because it contains in a highly concentrated form all of the curative, medicinal and strength-giving elements of cod liver oil, actually taken from fresh cods' livers, with the useless, nauseating oil eliminated and tonic iron added.

So sure are we of what Vinol will do for us, we ask every person in Rockland, Me., suffering from weak lungs, stubborn hacking coughs or any wasting disease to try Vinol on our offer to return money if it fails. Cyrus W. Hill, Drugist, Rockland, Me.

Vinol is also sold by the G. I. Robinson Drug Co., Thomaston.

WITH THE CHURCHES

Pastor Pringle of North Haven gave the hand of fellowship to four new members last Sunday in connection with the Lord's Supper which was postponed from the preceding Sunday on account of the storm. The Week of Prayer was observed, and the attendance and interest in all the services is most encouraging.

The annual meeting of the West Rockport church was held Jan. 4, and the officers of last year were, almost without exception, re-elected. The work of the church is moving on quickly but successfully. New hymn books have just been purchased and sixty new volumes have been added to the Sunday school library. Pastor Conant and family were recently remembered at Christmas by various gifts from friends in the church and congregation.

The Week of Prayer was of more than usual interest to the First church, Northboro. Meetings were held every evening, notwithstanding the rain and bad traveling. Rev. G. W. Cilly assisted the pastor, and was of great help. He won all hearts. Christians were helped. Some said: "Pray for me." One confessed Christ to her Savior. This church enters upon the new year with many tokens of divine favor. Pastor Carter is on the latter half of his fifth year with this people. Each year there have been marks of the divine approval.

The annual roll call and business meeting of the Waboboro church was held on Friday, Jan. 30, the occasion being greatly enjoyed by all who were present. The financial condition of the church is being raised to a higher standard each year. Home expenses have been very nearly met and the amount of money raised for benevolent purposes considerably increased. Along spiritual lines, also, the church is being quickened. The labors of the evangelists, Misses Edwards and Kitchen, are resulting in much good to the community. Some have come out on the Lord's side and many others must feel the influence of the earnest, forceful words of the speaker and the songs so effectively rendered by the singer.—From Zion's Advocate.

RIGHTS OF AUTOMOBILS.

What the Maine Law Court Says About This Important Matter.

The following receipt handed down some weeks ago by Judge Whitehouse was of deep interest to automobile owners and road travelers in general: In an action to recover damages for a personal injury received by the plaintiff as a result of the alleged failure of duty on the part of the defendant to stop and run the automobile in the highway directly in front of the plaintiff, the following facts appear:

The plaintiff and his sister were riding in an open wagon drawn by one horse and discovering the canopy top of an approaching automobile in which the defendant and a companion were traveling, they gave the statutory signal by raising the hand for the automobile to stop.

The defendant disobeys the signal and drives the automobile out of the highway two or three rods into a dooryard. The plaintiff was thereby induced to believe that he could drive along in safety, but the automobile unexpectedly turned and ran over the plaintiff, fracturing his arm and causing the injury of which he complains.

Both the plaintiff and defendant had a right to the highway with their respective vehicles, and it was the duty of each to exercise his right with regard to the corresponding rights of the other. With respect to the methods of travel and transportation on the highway, the law seeks to adapt itself to the new conditions arising from the progress of invention and discovery.

The ordinary highway is open to all suitable methods of use and automobile use is now recognized as legitimate means of conveyance on such highways. The fact that horses unaccustomed to seeing them are likely to be frightened by the unusual sound and appearance of them, and that they have been exercised to avoid accident and injury in the exigencies of the particular situation.

If the defendant had regarded the plaintiff's signal and promptly stopped his machine, the plaintiff would have had an opportunity to drive into the dooryard himself as he intended to do. If the defendant had kept his car stationary for a few seconds in the dooryard, the plaintiff could have driven along the highway in safety. The defendant did neither of these things; but having induced the plaintiff to believe that the car would remain beyond the area of danger, he suddenly reappears with it in the highway, his explanation of this extraordinary management of his car is that the team was so far up the road that it had passed out of his mind. This must be deemed thoughtless inattention on his part and a negligent disregard of the plaintiff's safety.

The defendant's thoughtless inattention under the circumstances stated was a failure of duty on his part toward the plaintiff and the proximate cause of the injury, and that a verdict in favor of the plaintiff was warranted by the evidence.

FROM NEW YORK

Two Hundred and Fifty Years of Transportation—New York Has Taken That Time to Advance from First Paved Streets to First Tunnel—The City's Forgotten Name—Sees Suffragette Invasion.

New York, Jan. 18.—The opening of the first tunnel under the East River last week, the latest advance in New York's transportation problem, which marks the inauguration of subaqueous travel, comes curiously enough at the end of two and one-half centuries which have marked the growth of local transit from its earliest beginnings. Just 250 years ago Manhattan attained its first paved street, known then as Dehooch street but now as Stone, that was in 1657 and the successive stages of advance which have culminated in the opening of the East River Tunnel form an interesting review. After the coming of the first paved street in 1657 no advance of note was made until 1697 the year which marked the first lighting of streets at night by means of lanterns. In 1755 the first ferryboat—a sail boat—began operations between New York and Staten Island. More than half a century later, that is in 1812, came the first steam ferryboat between this city and New Jersey. Twenty years later in 1832 came the first horse car line not only in New York but in the world which ran through a part of the Bowery. In 1836 came the first steam railroad, running from Brooklyn to Jamaica. Long Island. The year 1851 saw the opening of the first elevated line, a single track affair for which the motive power was furnished by cable. It operated between the Battery and Thirtieth Street then an outlying suburb. In 1853 came the opening of the Brooklyn Bridge and three years later the first cable car line. The first electric trolley lines began operations in Brooklyn in 1892, while the subway opened in Manhattan. The latest advance is the opening of the first tunnel under the East River in 1908 or 250 years after the city saw its first paved street. To advance from pavements to under river tunnels has taken Father Knickerbocker nearly the whole period of American history.

The fact, long since forgotten, that New York was once known as the Town of Mannados is an interesting discovery recently brought to light through a copy of an extremely ancient and valuable map now in the possession of the Old Guard of the City of New York. The oldest military organization composed entirely of veterans in the city, and one rich in historic memories and honors. While the metropolis today is variously referred to as New York, Manhattan and Gotham, and was formerly known as New Amsterdam, it is so to be ascertained that not one person in ten thousand ever knew of its still more ancient appellation—Mannados. The map through which this new old name was brought to light is entitled "A Description of the Town of Mannados of New Amsterdam as it was in the year 1664," and was discovered during the compilation of material relating to the city's early history for a local historical society. It was named by its discoverer the "Duke's Plan." The original is in the British Museum, but the copy in the possession of the Old Guard has been certified as to its correctness in every detail, and forms an interesting relic of New York's history nearly 250 years ago with its forgotten name of Mannados. Many historical relics of great value, belonging to the Old Guard were destroyed when its armory was burned in 1893. Others which were saved however still form a valuable and interesting collection in keeping with the name of the most famous and honored military organization of the city whose annual ball held every January, together with the yearly parade on the anniversary of the date of the city's English evacuation New York, form the two greatest events of the year in local military circles.

Society will soon have to discover something new in the way of jewels if diamonds continue to be the drug on the market which the panic has made them. As things go at present, the demands for diamonds is almost at a standstill and all sorts of substitutes are necessary to obtain a stone is to name your own price. Nobody wants to buy diamonds and the seriousness of the situation in this regard which has already brought about the failure of several large diamond houses simply because trade was dead is instanced by the fact that the importations of these gems for 1907 were nearly \$12,000,000 less than in 1906 when prosperity was so much in evidence. Diamonds which cannot be sold are just so much unproductive capital, a fact strikingly illustrated by the inability of the firm in whose possession it is to dispose of the world famous Hope blue diamond valued at \$250,000. A large portion of this stagnation is found in the pawn shops. In New York more than anywhere else in the country people of small means have acquired the habit of purchasing diamonds with their savings instead of banking them, on the theory which heretofore has always been that diamonds are a safe investment.

Nothing can cause more pain and more distress than Piles. No wonder many Pile sufferers say their lives are burdens to them. Ointments and local treatments may relieve but cannot cure. Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This is a pleasant and a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable by kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root pamphlet telling all about Swamp-Root, including many of the thousands of testimonials received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root. Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Can All Be Cured by Uric-O.

If rheumatism continues to spread as it has in the past few years, it would seem as though we would before long become a nation of cripples. The terrible destructiveness of this disease is apparent on every side of us. Almost nine out of ten of the cripples one meets had their affliction brought on by rheumatism. How many thousands more there are that are hopelessly bed-ridden and whom we never see. Rheumatism, from the very nature of the disease, can never cure itself and if neglected is bound to grow worse rather than better. If you ever have any twinges of Rheumatism go to the druggist and get a bottle of Uric-O, the wonderful new Rheumatic Specific. It will cure you and it is the only treatment in the world that will cure you permanently and thoroughly. Uric-O cures by its direct action on the muscles, blood and kidneys. It seeks out the poisonous Uric and Rheumatic Acid and drives it from the system, and it is only a treatment of such a nature that will ever cure Rheumatism. Liniments and plasters only serve to drive it from one spot to another. They never cure Rheumatism, because it is primarily a blood disease, and until the blood is cleared from the poison a cure cannot take place. You can test Uric-O free of charge if you wish. Just cut out this advertisement and send it to the Smith Drug Co., 301 Smith Bldg., Syracuse, N. Y., together with your name and the name of your druggist. They will give you an order on him for a 7-cent bottle free, which you can test and see to your own satisfaction. Uric-O is sold and personally recommended in Rockland by Cyrus W. Hill.
